T8-46-117P2S-865-DE-BYP

Project:	Туре:	Prepared By:	Date:
	50)- 	output Optics desi Multiple ler 120V-277V Ambient te Rotatable e Robust plas	Features and Benefits ed on both sides of the tube provides 360-degree light gned to deliver smooth even light without hot spots lights available for any application need - Universal voltage mperature: -20°C/-4°F to 55°C/131°F indcaps all installer to direct light where needed stic and aluminum construction to minimize breakage d UV free. RoHS-compliant components.

RAB

Technical Specifications (continued) Electrical Technology EQ: Environment/Fixture Rating: Damp / Enclosed Fluorescent Input Voltage: Warranty (Years): **RoHS:** 120-277V RAB warrants that our LED products will be free Mercury and UV free. RoHS-compliant **Operating Frequency:** from defects in materials and workmanship for a components. 50 / 60 Hz period of five (5) years from the date of delivery FCC: Installation to the end user, including coverage of light Complies with Part 15 of the FCC Rules output, color stability, driver performance and **Installation Method:** fixture finish. RAB's warranty is subject to all terms and conditions found at UL TYPE B, Ballast Bypass - Double Ended Wire rablighting.com/warranty. Other **Equivalency:** Compliance T8HO and T12HO Safety Listing: UL Listed
